

ML Uno

TECHNICAL DATA

Part #: 135101000

ML Uno is the smallest unit from the ML family. The size of the unit is that of a small spot lamp. It is well suited for low-ceiling rooms, even where a high replacement of air is required, and is because of its invisibility well suited for any purpose.

ML Uno is installed directly on wall or ceiling at a height of min. 6 ½ feet, and is connected to the ML pump station by flexible high-pressure hoses.

The water is atomized under high pressure into microscopic particles evaporating immediately.

ML Uno is compatible with other humidification pump stations from Nortec.

ML Uno is delivered as a unit with wall or ceiling fixture.
